

MESSAGE

It is my pleasure to present the general Prospectus of Guru Nanak Dev University. It is for the first time the facility for on-line submission of applications has been provided for admission to various courses available with the university.

In a relatively short span of forty years, Guru Nanak Dev University has established itself as one of the best in the disciplines of sciences, engineering, management and humanities. National Assessment and Accreditation Council of India (NAAC) has awarded it the highest grade point after evaluation of its performance twice in succession. A number of departments in sciences and humanities are covered by FIST-DST and UGC-SAP Programmes. The university has well-furnished laboratories. It has one of the largest libraries in North India with more than 4,00,000 holdings and availability of over 5000 Journals on line.

In our movement towards excellence, we have taken new initiatives in teaching, research, examinations and transparent evaluation system. Introduction of Credit Based Evaluation System, in Science, Life Science, Engineering and Management departments will go a long way in raising further the academic standards. It will help us to compete with the best in the world. Here the students have easy access to high speed Wi-Fi connectivity. The university has separate placement cell with excellent placement record. The university has won top positions in sports and cultural activities.

Being conscious of its obligations to promote studies on the life and teachings of Guru Nanak Dev Ji and to promote Punjabi language, the university has decided not to charge any tuition fee from students in the Departments of Guru Nanak Studies and the School of Punjabi Studies.

I am happy to welcome new aspirants for admission to this excellent destination of higher learning. I wish you all the very best and bright career ahead.

Dr. Ajaib Singh Brar
Vice Chancellor
